Gift fire bird is an ancient Indian story that talks about the period when people didn't have fire. The fire is brought to the village by a bird, which wants to give it only to the most honourable person. Everybody wants to have the fire except one girl who takes care of her ill father.

The theatre group **HOP-HOP** with Irena Konyvkova as the director has been giving performances for 28 years and it has already presented 53 plays (including short funny pieces and more complicated and serious ones). It depends on what the members want to speak about or what they want to perform. Most of the performances could be seen at all kinds of national festivals (children's festivals, student's festival, Jirasek's Hronov). Our members took part in festivals in Italy, Austria, Great Britain, Luxembourg, Germany, Switzerland and Belgium.
